

IBB Institute Colloquium SoSe 2022

Goal

Goal of this colloquium is to discuss topic on current research work off the institute as well as to give the possibility to colleagues from other institutions working on related topics to present their work. The colloquium is a forum for experts working in the field of human Neuroscience, but also for students and PhD students from the faculties of Medicine, Psychology, Biology, Physics and Mathematics, who are interested in the field of Neuroscience.

Venue

The colloquium will take place in the Seminar-Room of the Institute of Biomagnetism and Biosignalanalyses of the University of Münster, Malmedyweg 15, 48149 Münster

Talks and Dates

Thu., 12.05.2022

16:00 to 17:30

Speaker: Caglar Cakan, TU Berlin (Host: Joachim Groß)
Title: "Whole-brain computational modeling"

Thu., 19.05.2022

16:00 to 17:30

Speaker: Gerald Echterhoff, Social Psychology Group, WWU (Host: Markus Junghöfer)
Title: "Indirect Forms of Outgroup Derogation: The Denial of Shared Reality in Interpersonal Communication"

Thu., 02.06.2022

16:00 to 17:30

Speaker: Julian Varghese, *Institute of Medical Informatics (IMI), UKM* (Host: Carsten Wolters)
Title: "Time series analysis with machine learning at the IMI"

Thu., 09.06.2022

16:00 to 17:30

Speaker: Andreas Jansen *Laboratory for Multimodal Neuroimaging, University of Marburg* (Host: Markus Junghöfer)
Title: "NN"

Thu., 23.06.2022

16:00 to 17:30

Speaker: Asad Khan (Host: Carsten Wolters)
Title: "Individually targeted and optimized multi-channel tDCS outperforms standard bipolar tDCS in stimulating the somatosensory S1"
