

**Prof. Bettina Pfeiderer** has a diploma and a PhD. in Chemistry. After completing her doctorate, she spent 5 years as a research associate at the Harvard Medical School in the NMR Center, Boston, USA. She then returned to Germany in 1994 to work at the department of clinical radiology at the University of Münster where she meanwhile attended medical school. She had her finals and approbation as a medical doctor in December 2004 and completed her MD thesis in 2005. Currently she is an associate professor at the University of Münster and head of the research group “Cognition & Gender”. She is member of the Otto-Creutzfeld for Cognitive and Behavioral Neuroscience in Münster, president of the Münster branch of the German Medical Woman's Association and member of the executive committee and chairwoman of the scientific committee of the Medical Women's International Association (MWIA).
