Daniel Zsebedits studied medical computer science at the University of Heidelberg in cooperation with the University of Heilbronn. He graduated in 2012 as Bachelor and in 2014 as Master. Then Mr. Zsebedits was employed as a research assistant at the University of Heilbronn. He worked in several industrial research projects with a focus on usability and modern inter-action technologies in software development.

Since February 2016 he is working on the content design of the current project "Development of an open exchange platform - GenderMed-Wiki ".
