

Münster internal stem cell seminars

- Online seminars focused on stem cell related research
- The aim is to acquaint between different groups working with stem cells, and promote collaboration
- Monthly on a Thursday on 12:00 PM and can be accessed by zoom
- The seminars are conducted as a part of the URTC neuroinflammation

Next Seminars

2.5.24 – The research group of Prof. Michael Ziller

6.6.24 – The research group of Prof. Tanja Kuhlmann

4.7.24 – The research group of Prof. Luisa Klotz

People who wish to actively participate in the seminar series are most invited to contact Yotam Menuchin-Lasowski at:
