

4th International Symposium

25th - 27th September 2015

Münster, Germany

Sonderforschungsbereich / Transregio 58

Fear, Anxiety, Anxiety Disorders

25th FRIDAY

18.00 Welcome
Hans-Christian Pape, Thomas Straube

18.10 Christian Grillon
„Anxiety during uncertain anticipation:
from functional responses to
psychopathology“

19.00 Welcome reception

20.30 Social event (optional):
„Night Sightseeing Münster“

26th SATURDAY

Session I (Chair: Hans-Christian Pape)

9.00 David Slattery, Inga Neumann
„Assessing the role of oxytocin and
neuropeptide S in fear- and anxiety-
related behaviours“

9.30 Kay Jüngling
„Inhibitory control of the NPS-system:
a central amygdalar feedback“

10.00 Jan Haaker
„The influence of endogenous opioids on
threat learning“

10.30 Selected presentation

10.50 Coffee break (20 min)

Session II (Chair: Martin Herrmann)

11.10 Luiz Pessoa
„The cognitive-emotional brain:
from interactions to integration“

11.40 Marta Andreatta
„The effect of memory age on contextual
fear generalization“

12.10 Christian Büchel
„The neural basis of fear generalization“

12.40 Selected presentation

13.00 Lunch (60 min)

Session III (Chair: Thomas Straube)

14.00 Stefan Hofmann
„Treating anxiety disorders from a
translational research perspective“

14.30 Katharina Domschke
„Patho(epi)genetics of anxiety“

15.00 Ulrike Lueken
„From characterization to
individualization: diagnostic and
prognostic neuroimaging markers for
anxiety disorders“

15.30 Selected presentation

15.50 Coffee break (20 min)

Poster Presentation Session

18.30 Come together / Dinner

27th SUNDAY

Session IV (Chair: Kay Jüngling)

9.00 Andrew Holmes
„Defining neural fear circuits to design
new anxiety treatments“

9.30 Beat Lutz
„The bliss of endocannabinoids in fear
and anxiety“

10.00 Maren Lange
„Cannabinoid CB1 receptors in circuits of
the extended amygdala are crucial for fear
sustainment“

10.30 Selected presentation

10.50 Coffee break (20 min)

Session V (Chair: Markus Junghöfer)

11.10 Norman Schmidt
„Anxiety sensitivity: a transdiagnostic
risk factor“

11.40 Tina Lonsdorf
„Adversity promotes relapse of fear –
converging evidence from a series of
studies“

12.10 Udo Dannlowski
„Imaging endophenotypes of anxiety
disorders – genetic and environmental
underpinnings“

12.40 Selected presentation
