

7th SFB TRR-58 PhD student symposium

June 8 – 10 2015

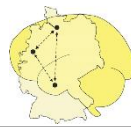

Nordwalde

organizing committee:

Achim Walter, Robert Scharfenort, Miriam Schiele

We thank Prof. Pape & Mrs. Borgmann for their support
and the SFB TRR 58 for funding this meeting!

Monday, June 08, 2015

12:30	<i>Arrival, lunch, check-in</i>
14:00	Miriam Schiele, Julia Reinhard, Christoph Schartner (Würzburg): Gene-environment interactions in dimensional endophenotypes of fear and anxiety and their generalization in adults and children
15:00	<i>Coffee break</i>
15:30	Carina Bodden (Münster), Jann Kolter (Würzburg), Jasmin Remmes (Münster): Effects of life history on behavioral profiles, neuronal plasticity, fear memory and extinction in 5-HTT knockout and wild type mice"
17:00	Niklas Kästner (Münster): Half empty or half full? A touch-screen based paradigm to assess cognitive judgement bias in mice.
17:30	Neele Meyer (Münster): Effects of 5-HTT genotype and social environment during adolescence on anxiety-like and aggressive behavior
18:00	<i>Dinner</i>

Tuesday, June 9, 2015

8:30	<i>Breakfast</i>
9:00	Achim Walter (Münster): Substance P excites GABAergic neurons in the mouse central amygdala
9:30	Benjamin Aboagye (Würzburg): Influence of acute brain serotonin depletion on depression-related behaviour in inducible conditional tph2 knockout (icko) mice
10:00	Robert Scharfenort (Hamburg): Generalized and differential return of fear - the role of anxiety and stressful life events
10:30	<i>Break</i>
11:00	Marina Mahr (Würzburg): Psychophysiological markers of treatment response in panic disorder

11:30	Maximilian Geiger (Würzburg): The attentional network in anxiety and anxiety disorders
12:00	Christiane Ziegler (Würzburg): Oxytocin Receptor DNA Methylation – Role in Social Anxiety Disorder?
12:30 Uhr	<i>Lunch</i>
13:30	Dr. Florian Bublitzky (Mannheim): Beware of this! A research program on social threat learning
15:00	<i>Coffee break</i>
15:30	Katharina Feldker, Carina Heitmann, Paula Neumeister (Münster): Behavioral and neural correlates of disorder-specific scene processing in social anxiety disorder, panic disorder and post-traumatic stress disorder
17:00	Isabelle Klinkenberg, Luisa Münsterkötter (Münster): Predictability of threat modulates visual processing
18:30	<i>Barbecue</i>

Wednesday, June 10, 2015

8:00	<i>Breakfast and check-out</i>
9:00	PD Dr. David Slattery (Regensburg): Neuropeptide S and oxytocin: Major regulators of anxiety- and fear-related behaviour
10:30	<i>Elections</i>
11:00	<i>End of meeting</i>
